EXPERIENCE

FREELANCE WORK

Graphic Designer/Illustrator January 2008-Present

Priding myself on my quick turn around time, attention to detail and my personal style, I take on clients with needs ranging from simple logos or advertisements to 40 page magazine style guides with full color illustrations.

LEGACY PUBLISHING

Graphic Designer January 2009-May 2010

As one of three designers at a phonebook company that produced 30+ books annually, my main responsibilities were to create ads and other promotional materials, as well as cover designs. I challenged myself to create graphic designs far and above the typical cookie cutter, cliche ads seen in phonebooks.

LDS CHURCH OFFICE BUILDING

Graphic Design Intern May 07-August 07

Working within the "Small Jobs Shop," we tackled any project the church needed costing under $10,000.

I also created personal graphic designs for heads of the LDS Church, including DVD and CD labels and slip covers, power point presentations, photo editing, logo designs, posters, maps, and other misc. projects.
